

UX Testing + UI Iteration

Each Member of Your Team Will Have the **SAME 5 Users** (one member from each of the other teams and one non-CS Pathway student) ↗

	PUZZLE (Observation Only): As they solve your escape room where are they clicking when they shouldn't? Where are they getting stuck? What seems too hard or too easy? What types of hints were effective/ineffective?	NARRATIVE (Ask Out Loud): How would you describe the story and what is currently happening/happened in this room? What elements of the design (appearance, sound, etc.) could be unified to make this room feel more connected to the other rooms?

UI Before Feedback (GIF recorded with [Chrome Capture](#))

What trends did you identify in your feedback?

- Many died on baldi
- People ran out of battery from staring a slender man too long
- Many people didn't know how to add.
-
-

UI After Feedback (GIF recorded with [Chrome Capture](#))

What changes did you make to improve your puzzle UI?

- Made slender man drain battery slower.
- Gave 60 seconds for baldi instead of 38
- Added red text saying "ADD" next to the addition example
